
Algorithm 1: Binary Search Validation

```
1: If($#text("target") = #text("array")[#text("mid")]), {  
    Return[$#text("mid")$]  
}  
ElseIf($#text("target") < #text("array")[#text("mid")]), {  
    Assign[$#text("high")$][#$text("mid") - 1$]  
}  
Else({  
    Assign[$#text("low")$][#$text("mid") + 1$]  
})
```
