

Moderate Tables

Source-backed grouped table sample

1 Tables

These tables are grouped from source-backed LaTeX table data and compiled as a single benchmark data point.

Table 1: Source table 1: 2512.03794_table_2

SYSTEM PROMPT:

You are a helpful assistant.

Tools

You may call the function tool shown below to assist with the user query.

You are provided with the function signature within `<tools></tools>` XML tags:

`<tools>`

```
{
  "type": "function",
  "function": {
    "name_for_human": "request_local_region",
    "name": "request_local_region",
    "description": "Request a high-resolution local region of the current image
and zoom in",
    "parameters": {
      "properties": {
        "bbox_2d": {
          "type": "array",
          "items": {
            "type": "integer"
          }
        },
        "minItems": 4,
        "maxItems": 4,
        "description": "The bounding box of the region to crop, as [x1, y1,
x2, y2], where (x1, y1) is the top-left corner of the target region and (x2, y2)
is the bottom-right corner of the target region. The bounding box should be
in the absolute pixel coordinates of the current image.",
      }
    },
    "required": ["bbox_2d"],
    "type": "object",
  },
  "args_format": "Format the arguments as a JSON object."
}
```

`</tools>`

For each function call, return a json object with the function name and the corresponding argument within `<tool_call></tool_call>` XML tags:

`<tool_call>`

```
{"name": <function-name>, "arguments": <args-json-object>}
```

`</tool_call>`
