

List of Figures

1	Figure One.	2
	(a) One subone.	2
	(b) One subtwo.	2

Fig. 1: Figure One.

(a) One subone.

(b) One subtwo.

One subone	One subtwo
------------	------------

1 Fifth Test

This test checks to see if the subfigure package reacts correctly to the known sort of problem class. We check that the list-of-figures page has the two subcaptions in addition to the main caption. If not, than the nasty class has zapped us.

(We also need to check the test5.log file to insure that the problem was identified by the subfigure package and a warning was issued.)
