

Critical Boundary Conditions for the Effective String

Source-backed arXiv sample

1 Extracted Lists

The list environments below are extracted from arXiv LaTeX source and wrapped for pdfLaTeX validation.

Fig.1 Quantum string contributions, in the cylinder geometry, for various values of the ratio $z = \frac{2R}{L}$. The continuous line is the fermion string with $\nu = \frac{1}{4}$, the dotted line is the bosonic string and the dashed line is the $c = \frac{1}{2}$ critical Ising model.
